Brown Says Graft Witnesses BROWN'S LETTER

Following is Elon R. Brown's letter to Mayor Hylan requesting the removal of Market Commissioner O'Malley:

"I am constrained to write you in the performance of my duty a counsel to the legislative commit tee, requesting the immediate removal of Edwin J. O'Malley Commissioner of Markets.

"While you advised him, 'to reasons of expediency' to revoke the cancellation of permits held by two witnesses who had test fied to extortion by the Department of Markets, he stands there as a menace against drawing out further evidence of corruption in that department. The mere revocation of those cancellations will not restore any degree of confidence in permitees, and investigation by the committee shows that some permitees have preferred to appear before the committee and commit perjury rather than expose themselves to his wrath.

"I may add that the evidence learly shows that O'Malley had abundant notice of the activities of his inspector, Winter, who appears as the most guilty one in these extertions, more than a year ago: that suggestions of the extertions, sufficient to warrant drustle action, appeared in investigations before Commissioner Hirshfield, and that you now stand in the position indorsing O'Mailey's stand for the exclusion of permitees in the markets who have suffered from extortion Their punishment, according to your letter, is merely delayed.

"We Do Not Seek War"-"If War Be Made Upon Us We Must and Shall Defend Ourselves"-"We Long to End Conflict."

LONDON, Aug. 26 (Associated Press). - The text of the Irish reply, winen bears the date of Aug. 24, reads:

"The anticipatory judgment I gave in my reply of Aug. 10 has been confirmed. I laid the proposals of your Government before the Dail Eireann, and by a ununimous vote it has rejected them.

"From your letter of Aug. 13 it was clear that the principle we are asked to accept was that the 'geographical propinquity' of Ireland to Great Britain imposed the condition of the subordination of Ireland's right to Great Britain's strategic interests, as she conceived them, and that the very length and persistence of the efforts made in the past to compel pIreland's acquiescence in a foreign domination imposed the condition of acceptance of that domination now."
